A New Chapter for San Diego

The past few weeks have been a very trying time for our city; however now is the time to start writing a new chapter for San Diego.

My first responsibility as your Councilmember is to work with interim Mayor Todd Gloria and interim Chief Operating Office Walt Ekard to get our City back on track.

Many projects have sat idle on the previous Mayor's desk and board positions have remained vacant due to his non-involvement and micromanaging. I will work with leadership to guarantee those projects and vacancies will receive immediate attention.

We need to work together during this time of healing to make sure our City continues to flourish.

I appreciate your input and would like to hear from you about what I can do to improve our City. Please contact me at 619-236-6677 or via email at scottsherman@sandiego.gov.

It is a great honor to serve as your representative for America's Finest City.

In Service,

Scott Sherman

Linda Vista Pool

Throughout late July and early August residents and children of Linda Vista had the opportunity to partake in swim lessons at the Linda Vista Recreation Center. This program has been a staple in the Linda Vista community for years, and many of the children and their parents have learned to swim in this annual temporary pool at the recreation center.

My office was happy to sponsor this year's community pool program after months of concern the pool would be unable to open this summer as a result of budgetary constraints. I was able to attend the last day of swim classes at the Linda Vista pool and watched the "Tiny Tots" group final swim lesson. My focus for the coming years will be to support programs and projects similar to the Linda Vista Pool to help build a sense of community and allow people to grow.

Princess View Drive Storm Drain Replacement

In August, our office was informed by residents of District 7 of a sinkhole at the intersection of Princess View Drive and Princess View Way in Allied Gardens. Due to the severity and urgency of this issue I met with interim COO Walt Ekard to begin construction to institute a permanent solution to fix the corroded storm drain pipe which was causing the sinkhole to form. The City is now scheduled to begin construction to replace the storm drain pipe in January 2014, exactly one year ahead of schedule. Until the storm drain pipe is replaced, steel plates have been placed on top of the sinkhole. I will continue to monitor the condition of Princess View Drive.
